For Nebulae Vertical Chandelier specifications see back of catalogue

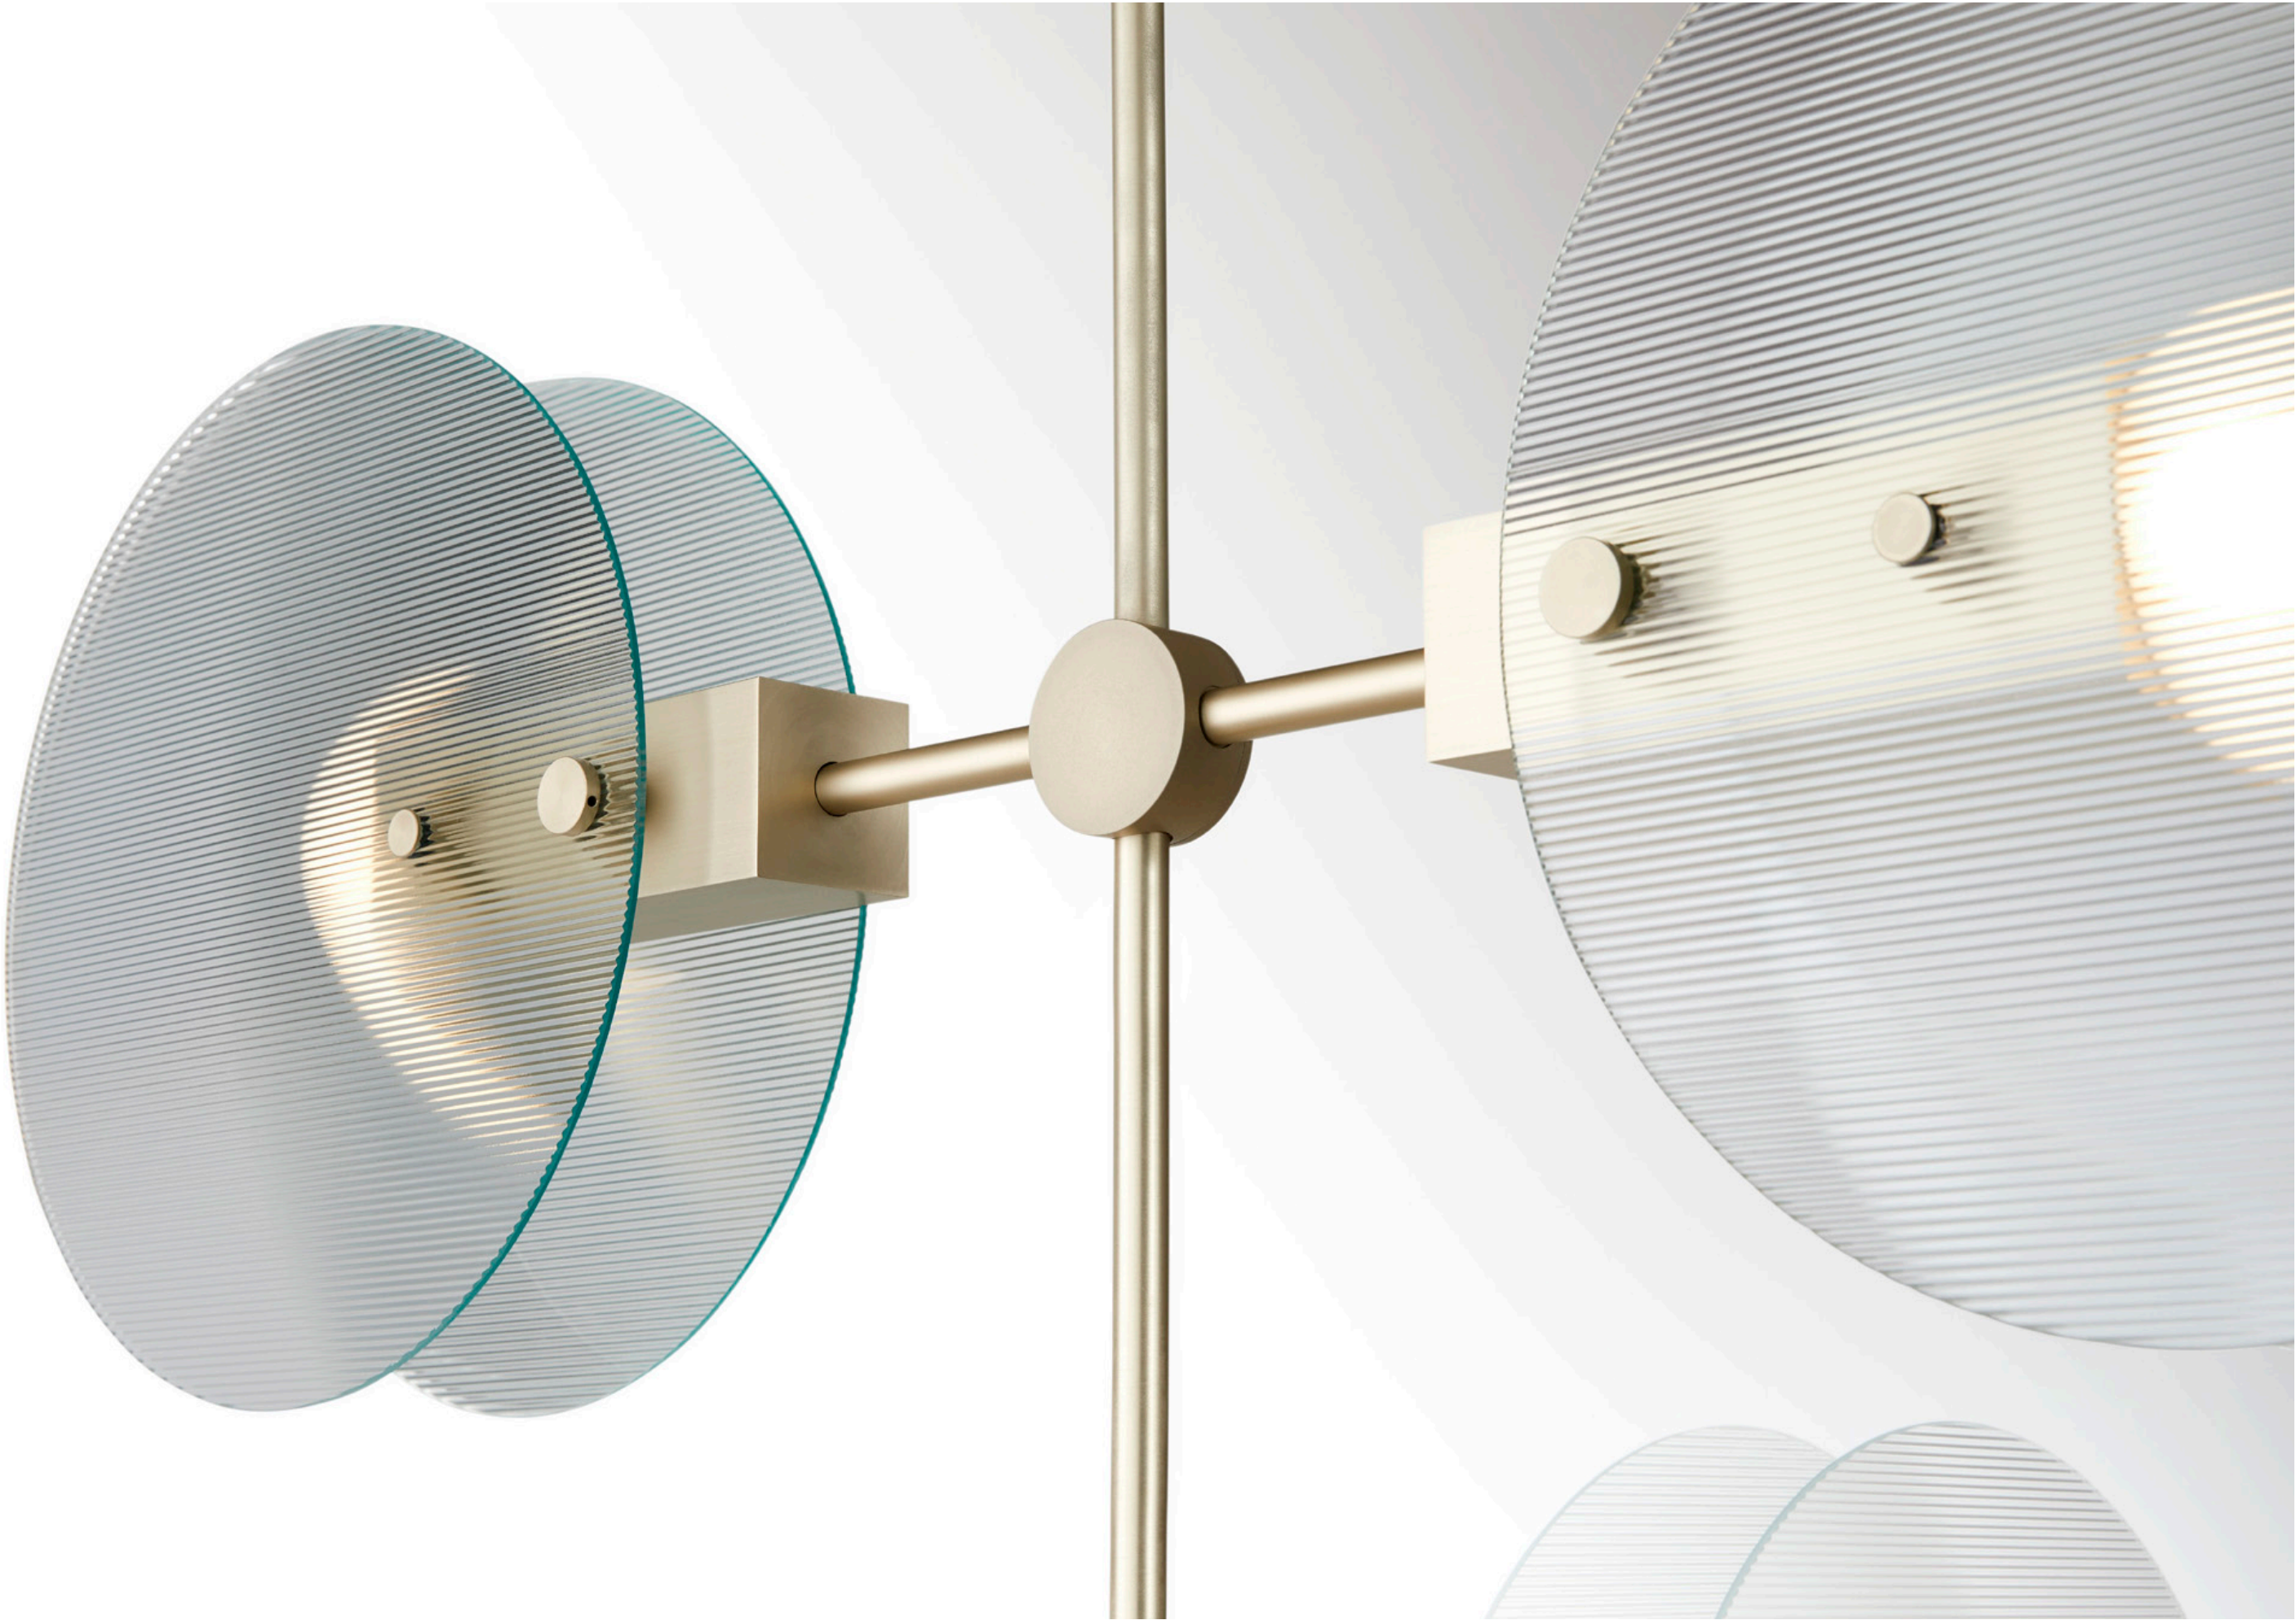

## NEBULAE - VERTICAL

Chandelier

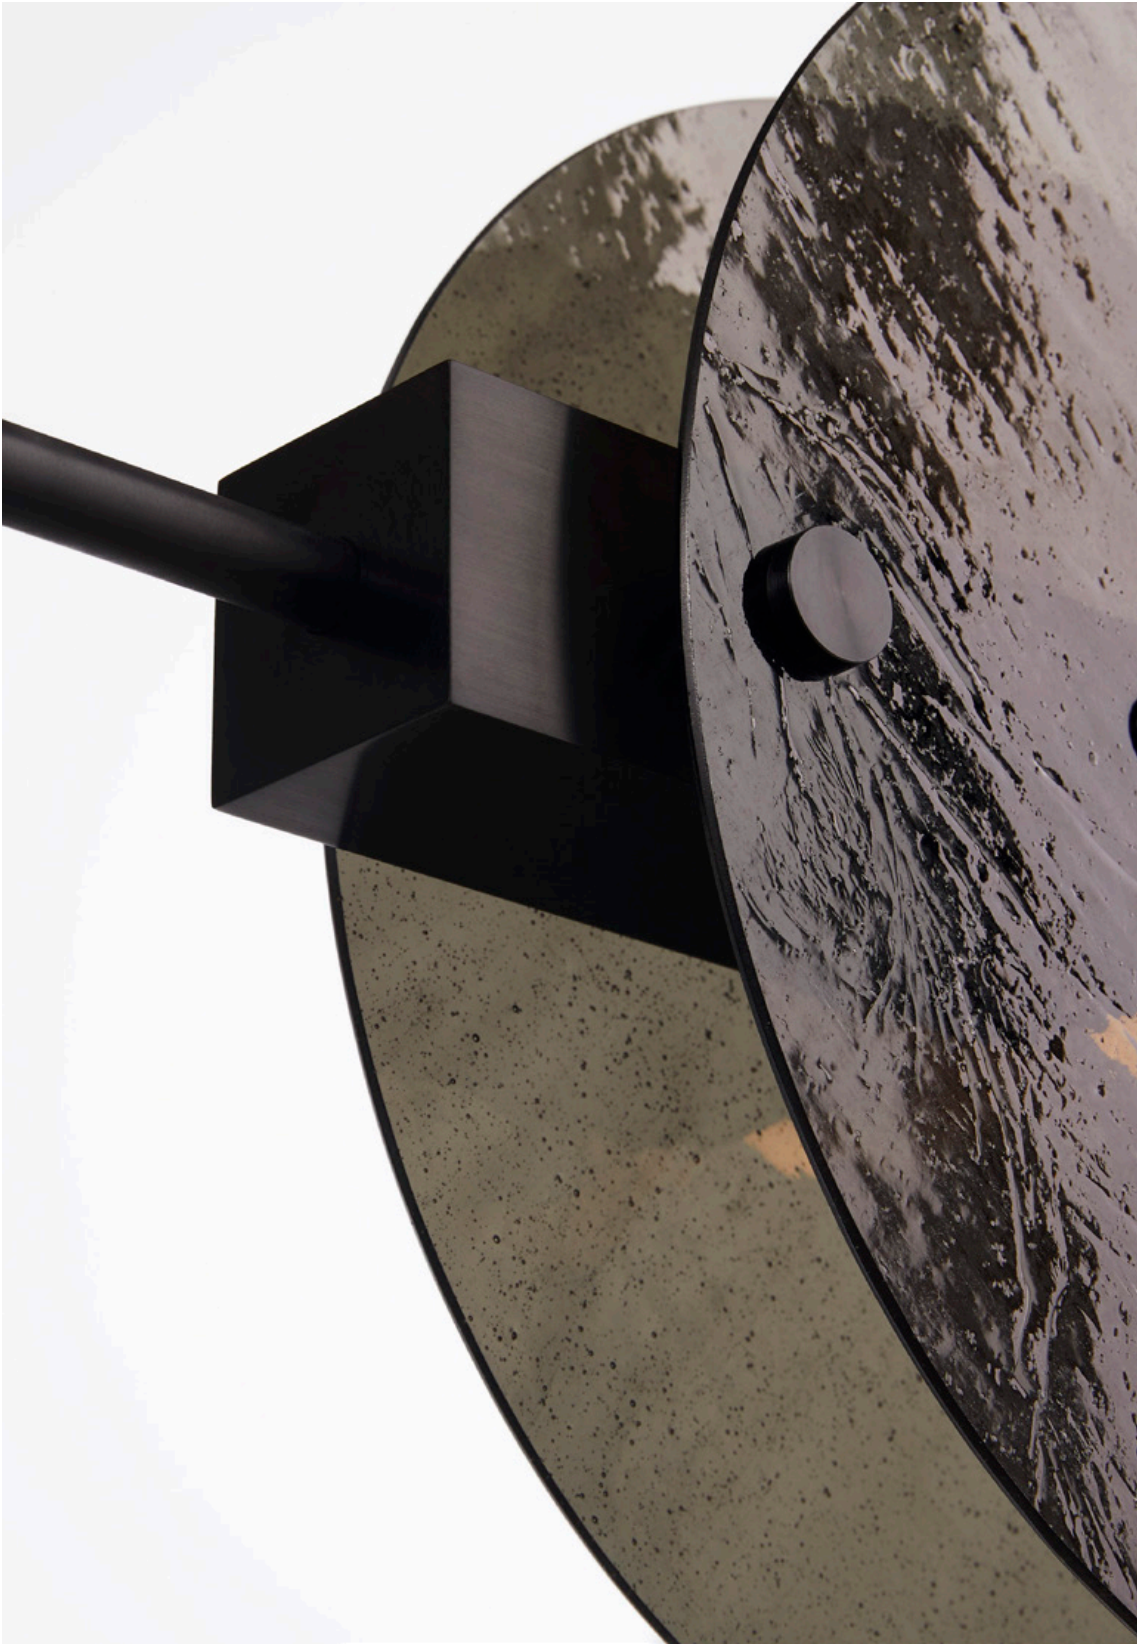

The Nebulae Vertical Collection is inspired by the diffusion of both natural and LED light. The geometric machined forms coupled with the fluid glass discs creates a balance between the elements.

The chandelier can be composed in a variety of hanging configurations and is available in one, two, three and five hanging options with symmetrical or offset variations. The body is manufactured from machined aluminium white champagne or black anodised. Nebulae's discs are available in a textured, bubbled black glass, white pearl or a fluted clear glass, each creating a unique light dispersion.

For Nebulae Horizontal Chandelier specifications see back of catalogue

## NEBULAE - HORIZONTAL

Chandelier

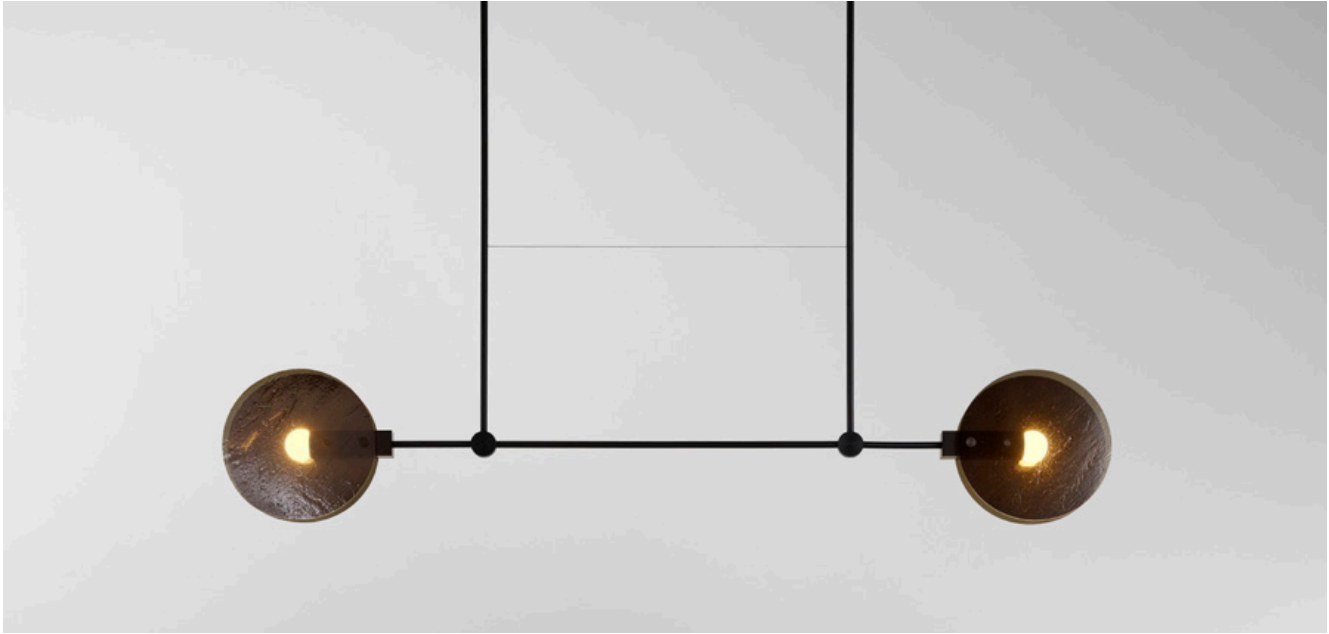

Designed for use in larger open spaces, working in modular configurations, the Nebulae Horizontal Collection is inspired by the diffusion of both natural and LED light.

Available in several configurations and glass finishes, the Nebulae Horizontal collection is both dynamic and sculptural in its linear form. Ideal feature lighting for grand foyers, above dining tables and hotel lobbies.

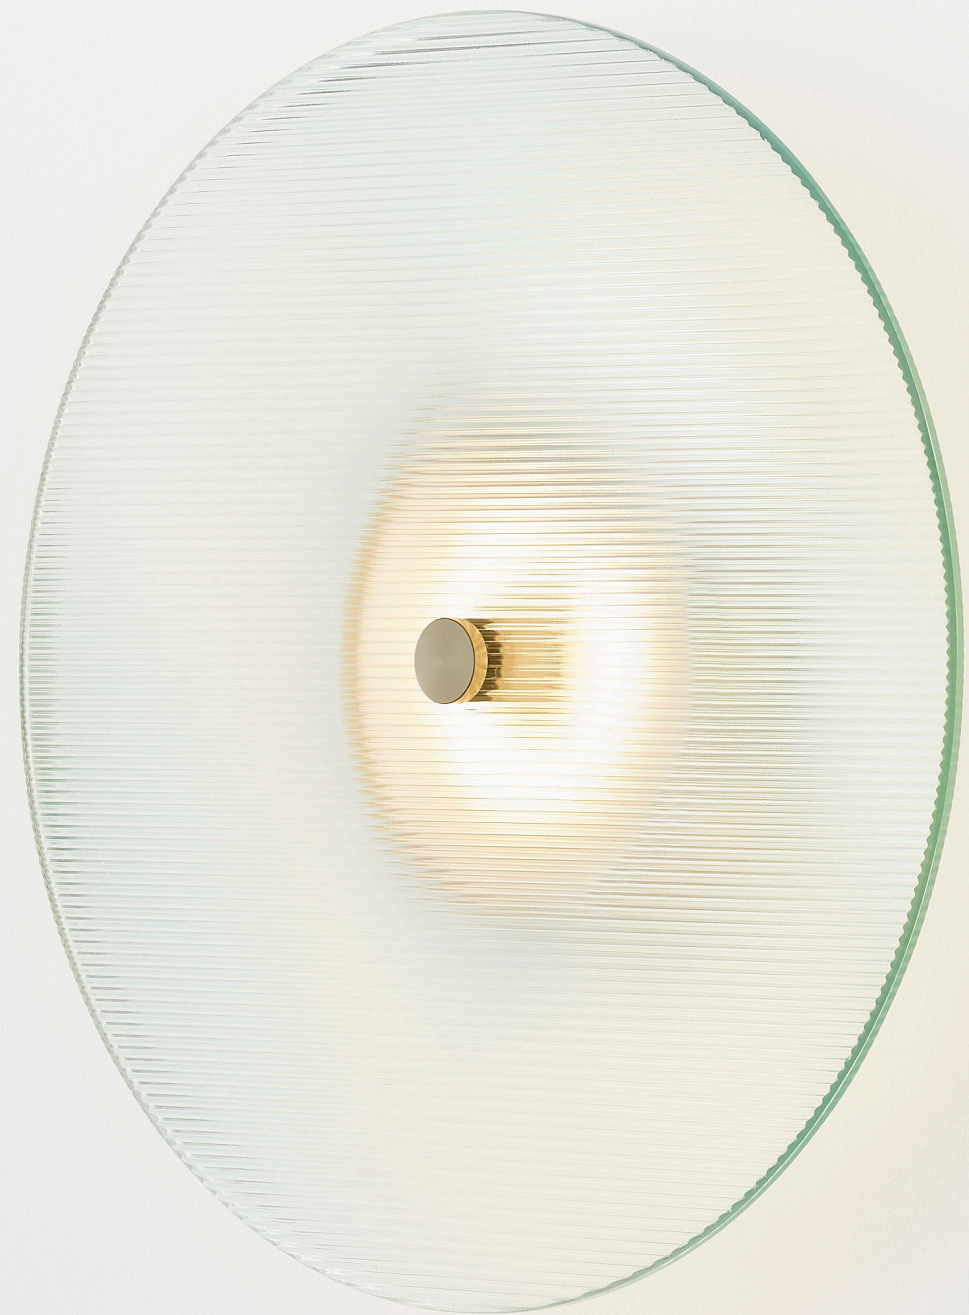

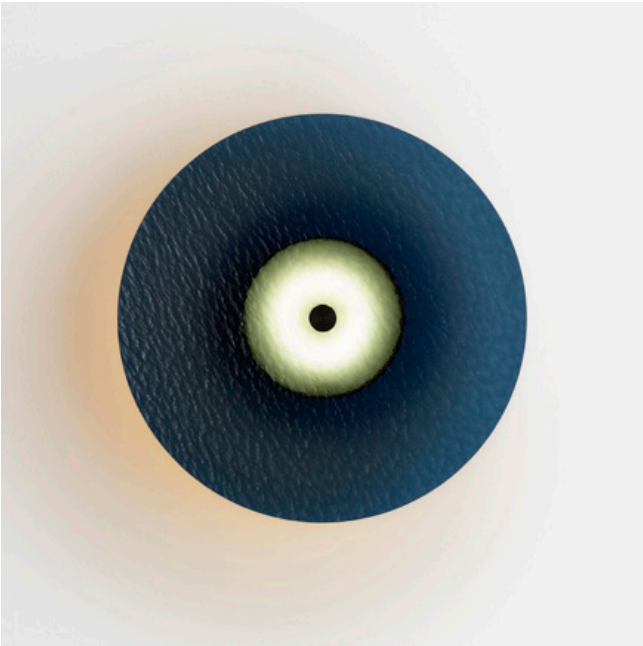

For Nebulae Wall Light specifications see back of catalogue

## NEBULAE

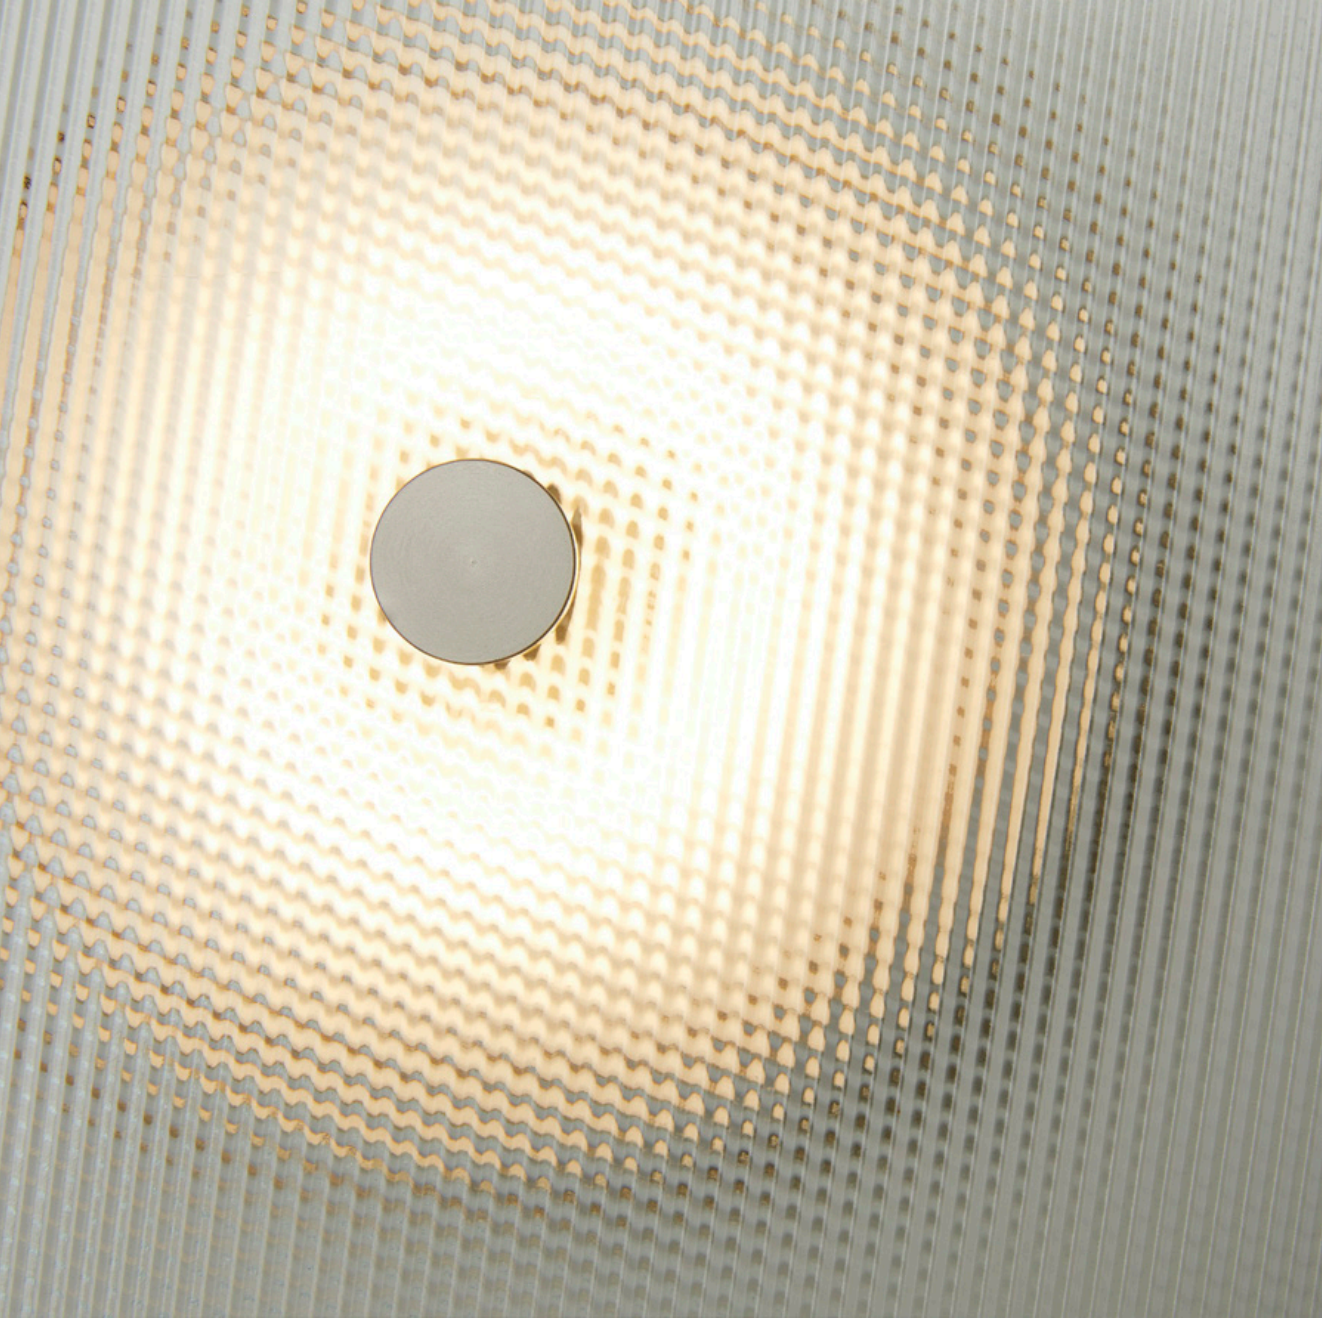

Wall Light

The Nebulae Collection is inspired by the diffusion of both natural and LED produced light. The geometric machined forms coupled with the light and fluid glass discs creates a balance between the elements.

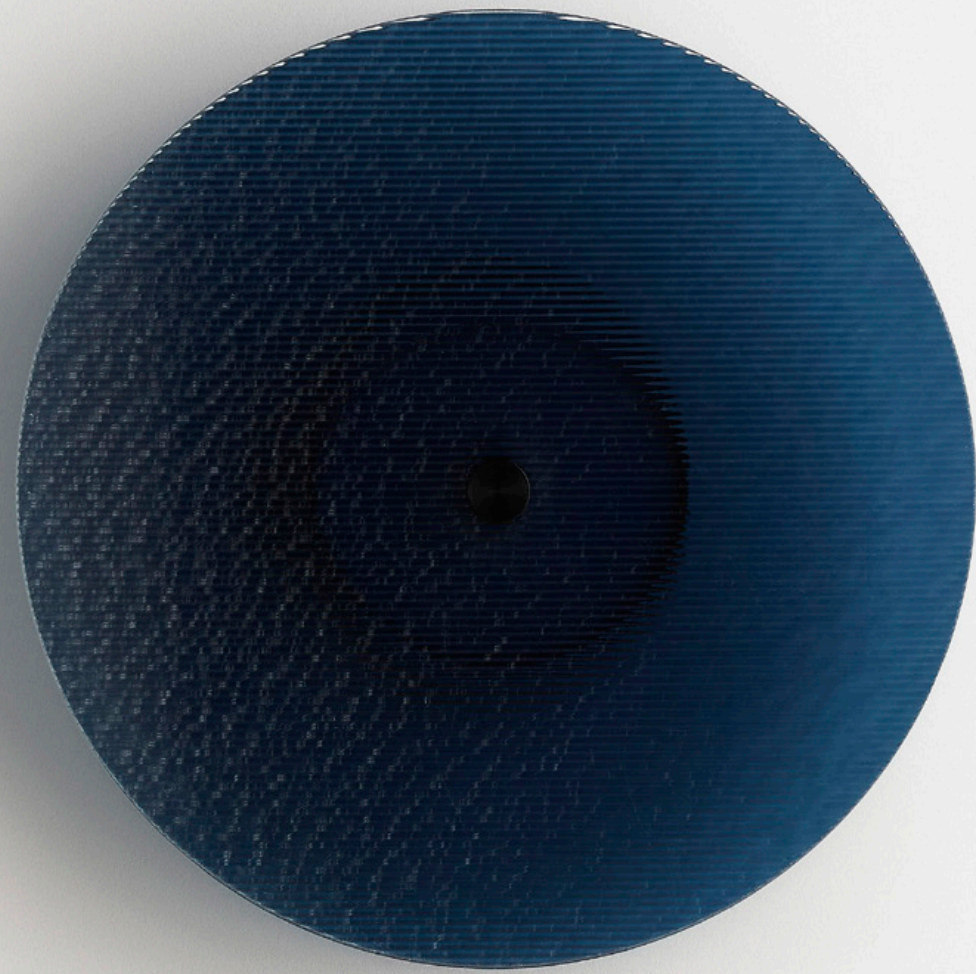

The Nebulae Wall Light is a statement in any space and supplies a beautiful adjustable light level. The wall light can be specified with a single glass disc or layered with an additional disc to create expansive light dispersion options. The body is manufactured from machined aluminium white champagne or black anodised. Nebulae's discs come in a textured, bubbled black, rippled blue, pearl white or a fluted clear glass, in singular or doubled.

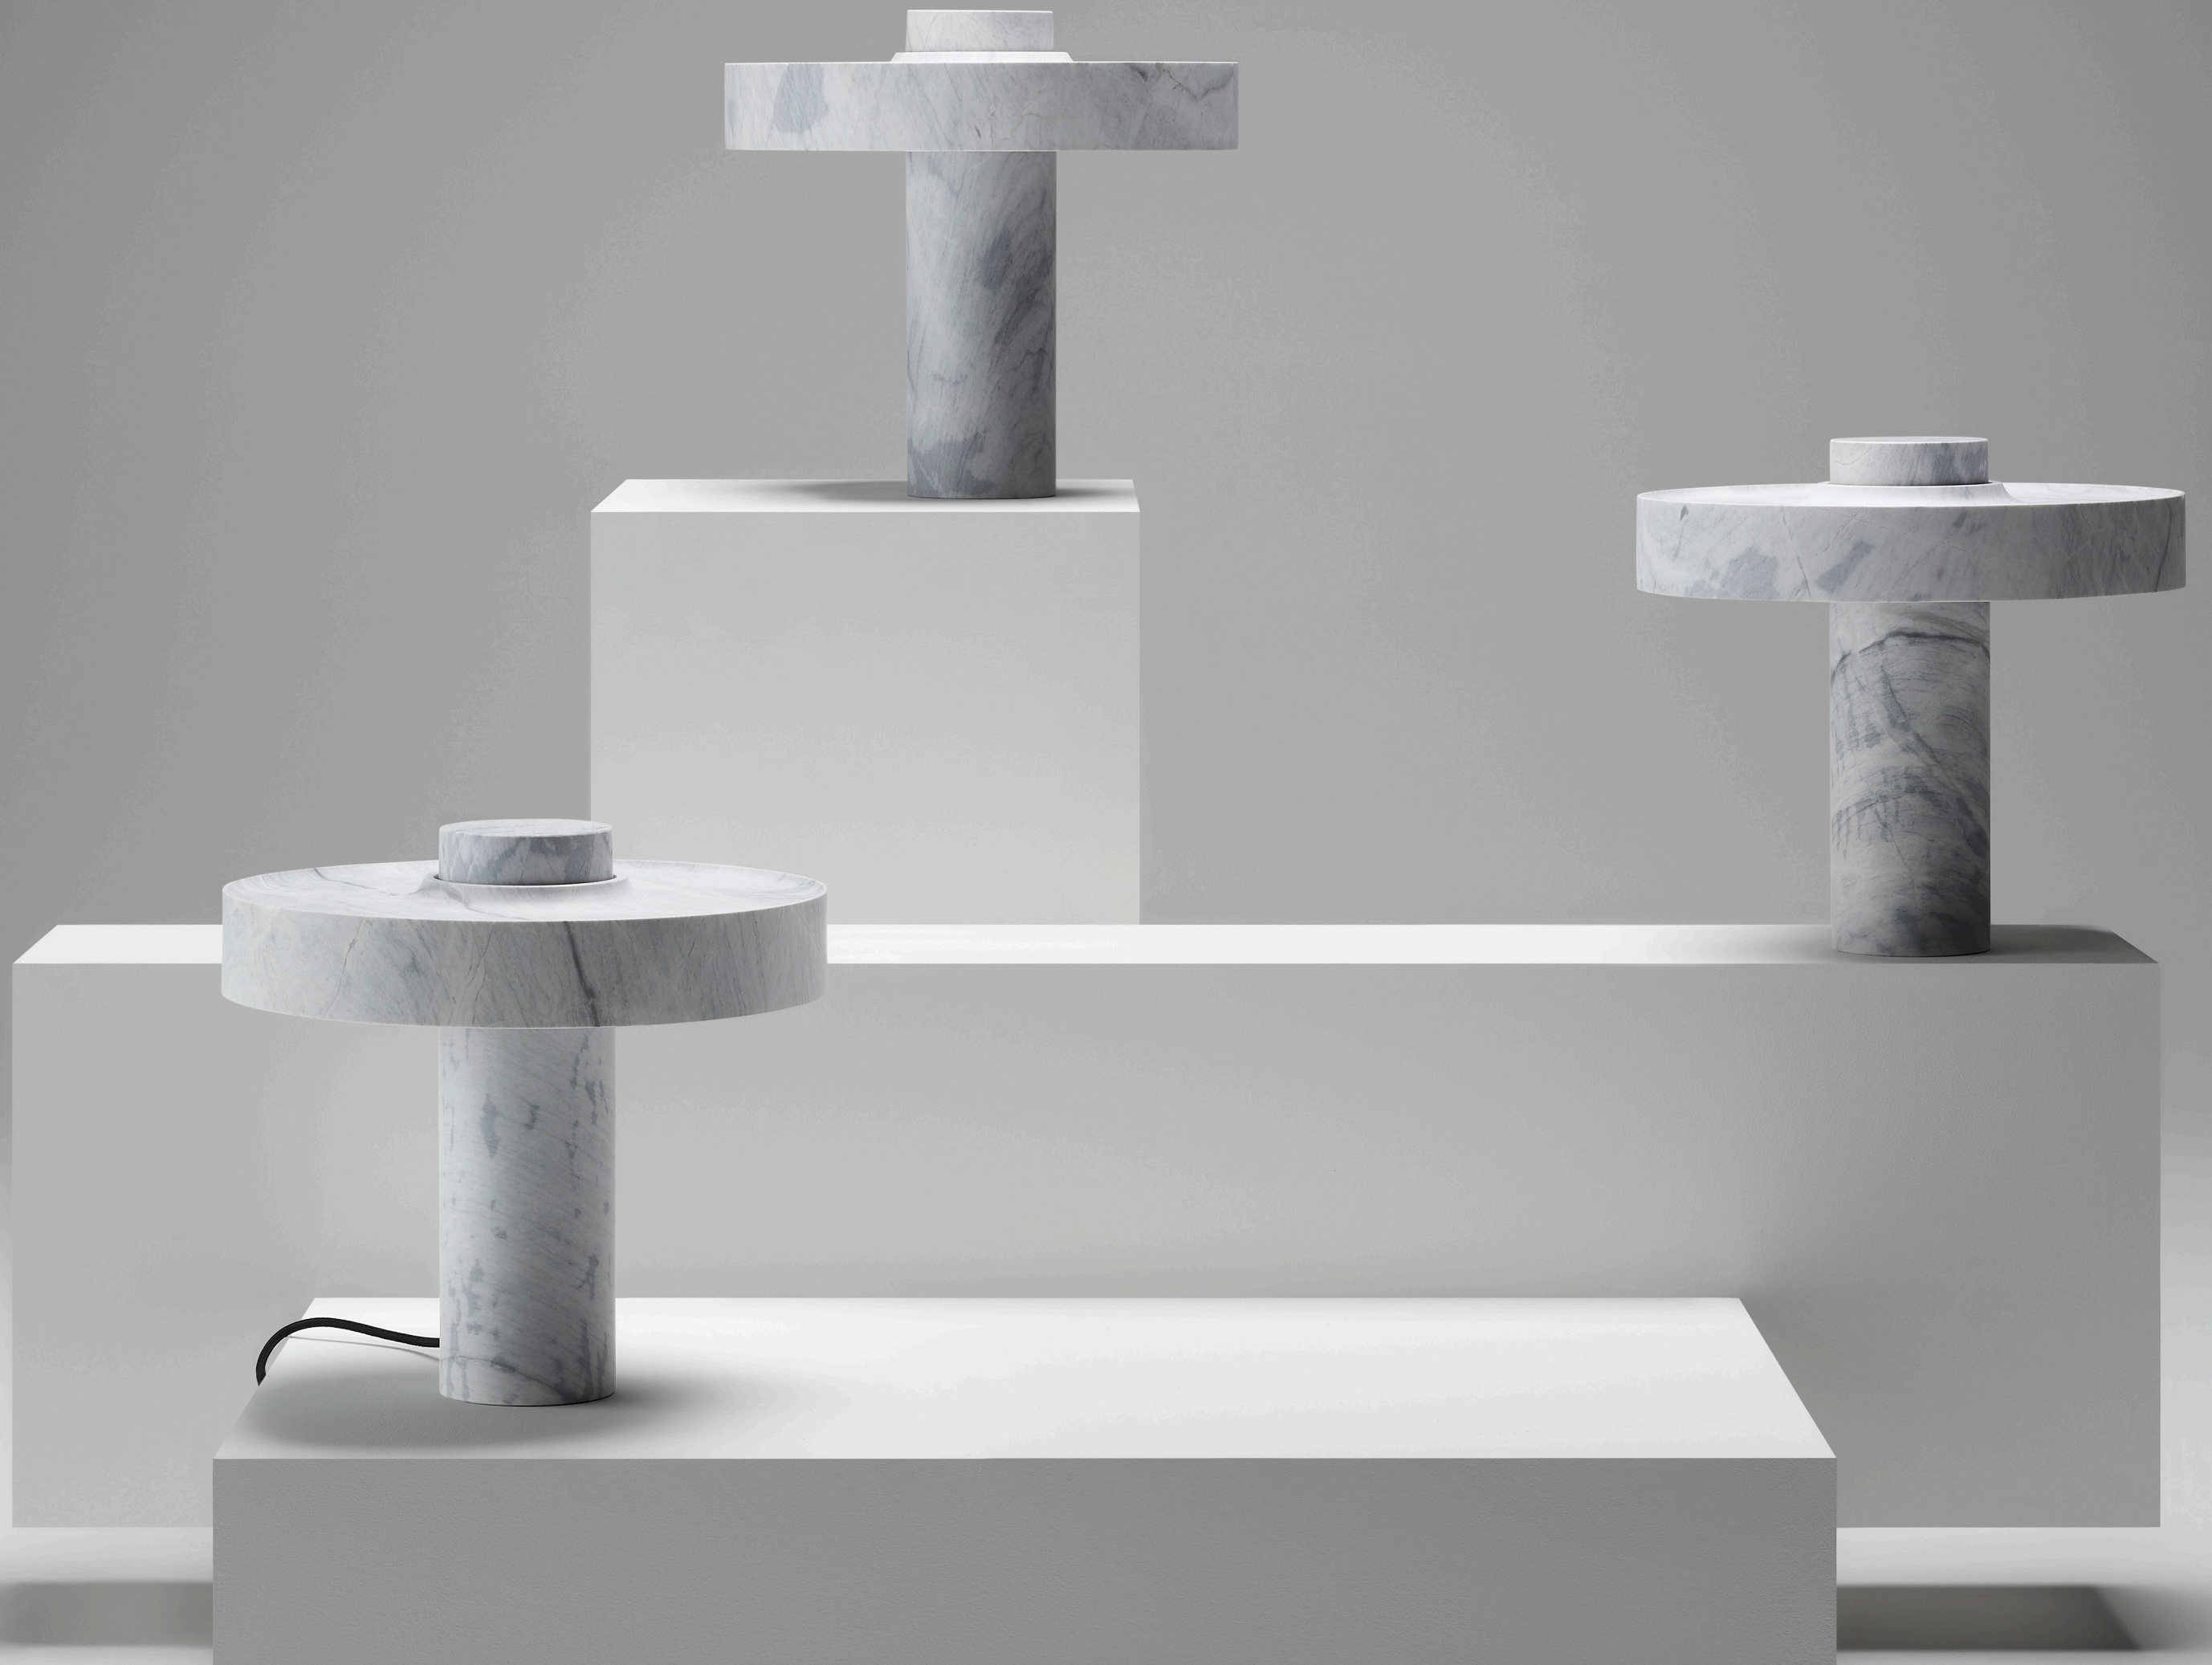

rossgardam.com

For Hemera specifications see back of catalogue

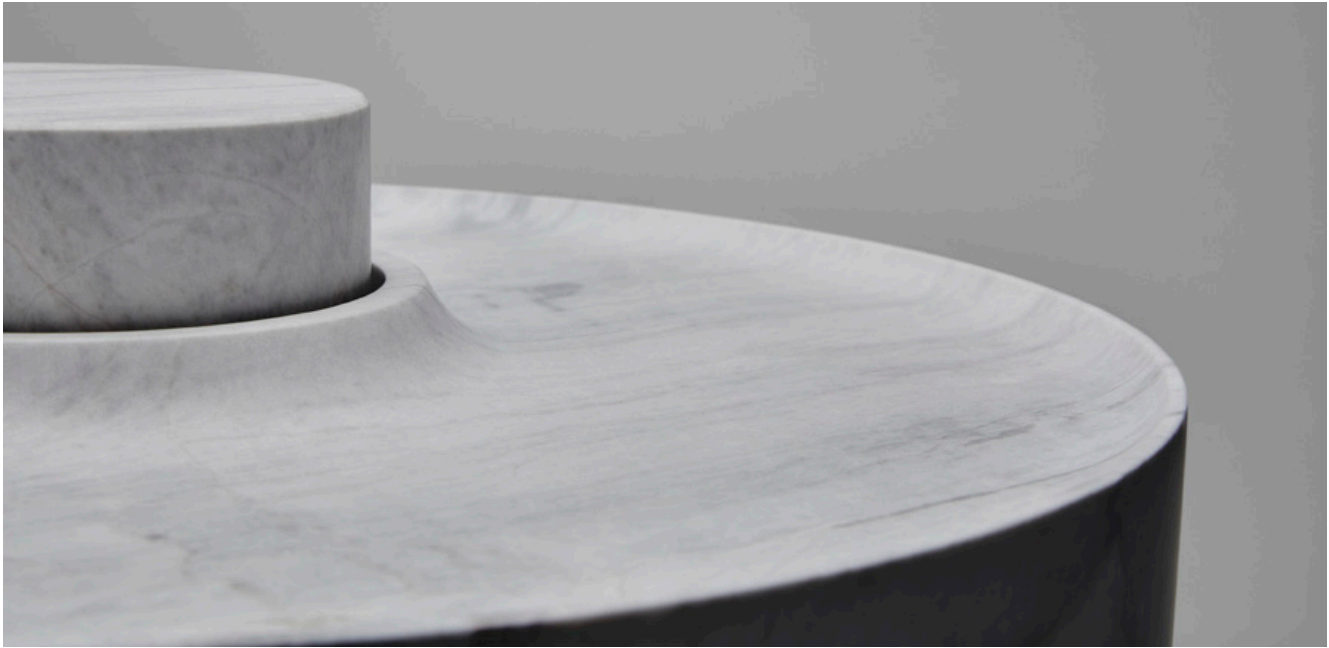

## HEMERA

Table Lamp

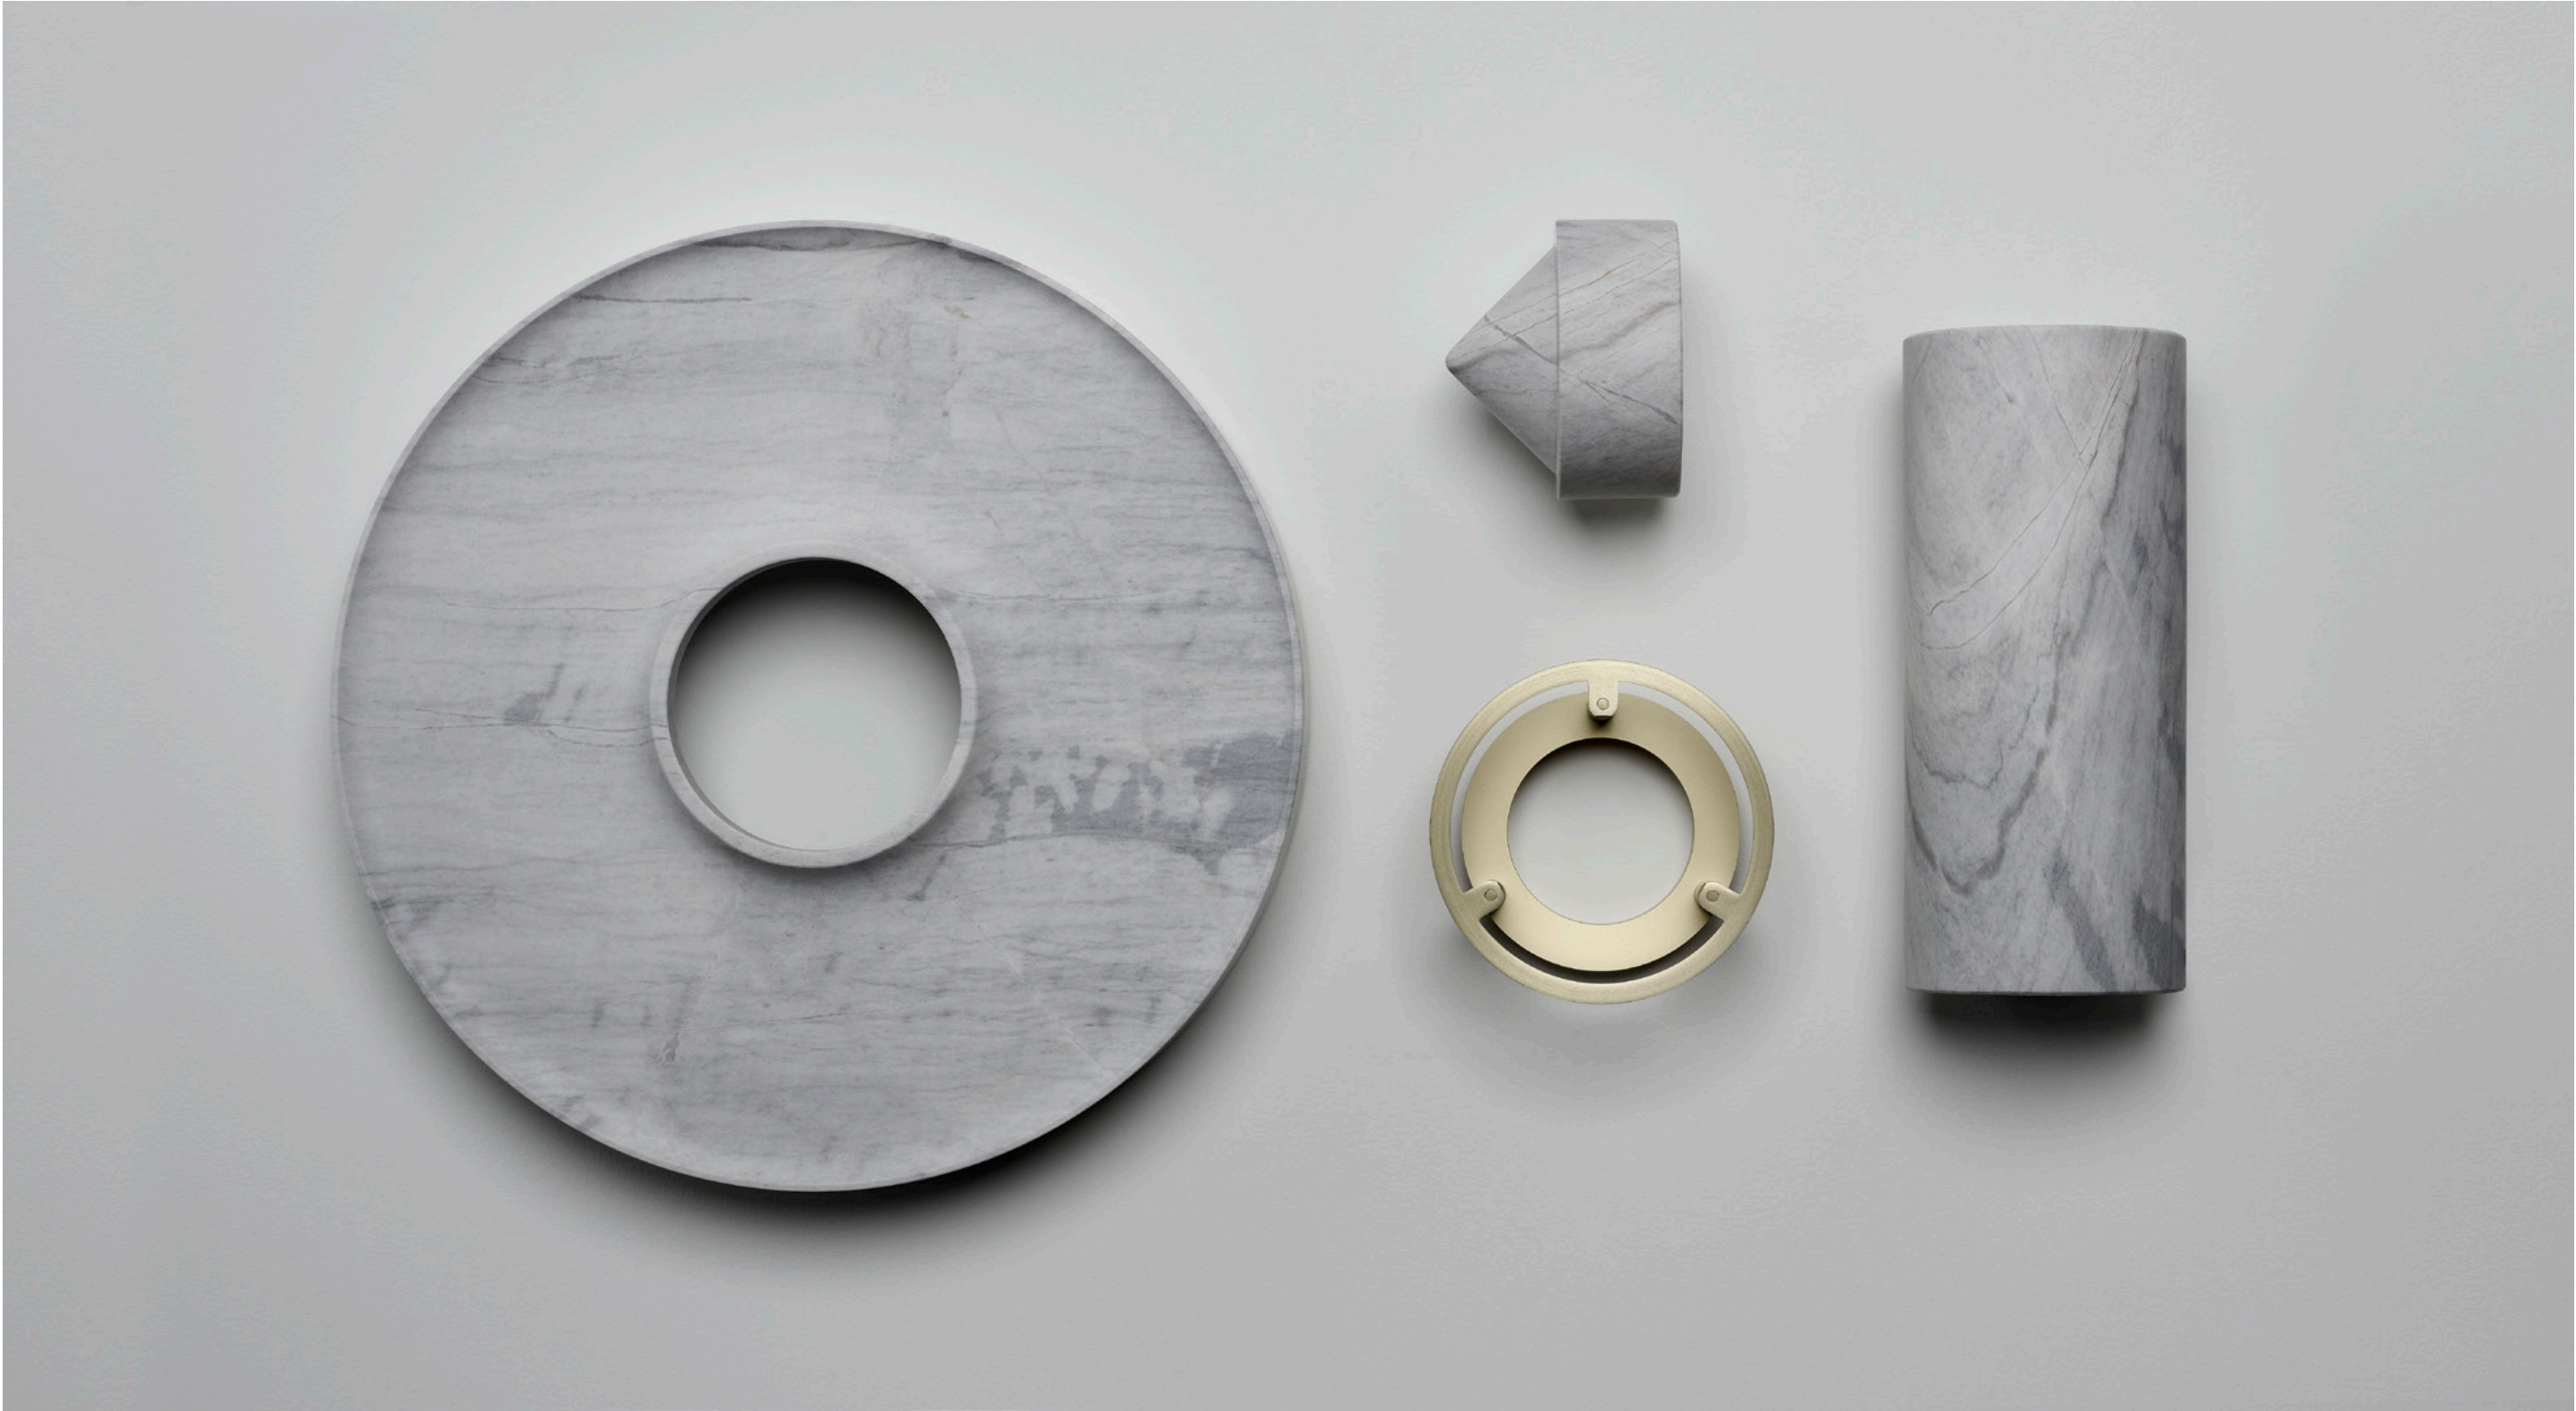

Just like the brutalist architecture from 60 years ago that it references, the Hemera Table Lamp is powerful in its simplicity of form.

Designed for the New Volumes™ collection, the two solid circular volumes intersect with no overtly visible light source, creating a striking desktop monolith and a lighting device of refined functionality.

rossgardam.com

## ORA

### Table Lamp

Inspired by the limited edition Ora Gold Table Lamp, the Ora Table Lamp has been re-engineered for production with a slimmer base, a softer rotational movement and new finishes.

Completely precision-milled from aluminium and available in either brushed anodised black or white champagne, the Ora desk lamp features an adjustable shade thanks to a clever magnetic joint. This allows the user to interact with a shade that can fully orbit in 360° and tilt-adjust in numerous positions.

For Ora Pendant specifications see back of catalogue

## ORA

Pendant

Sitting between the timeless and the contemporary, the Ora pendant features a floating disk surrounded by a beautifully gentle glow. Available in three sizes (Ø450, Ø600 and Ø1000mm) and various finish options, Ora is a versatile fixture designed to complement any number of interior settings, from the residential to the commercial and anywhere in between.

For Polar Desk Lamp specifications see back of catalogue

## POLAR

Table Lamp

Reflection of light and shadow. The Polar Table Lamp utilises a unique magnetically attached arm to allow the disk to arc around the body to direct or shade light. A friction disc in combination with magnets molded into the ceramic body allows the arm to snap into place and to function.

Polar's white ceramic base is hand crafted using traditional slip casting and the surface is bisque fired and presented unglazed. The disk is available in White, Midnight Blue and Dusk Pink.

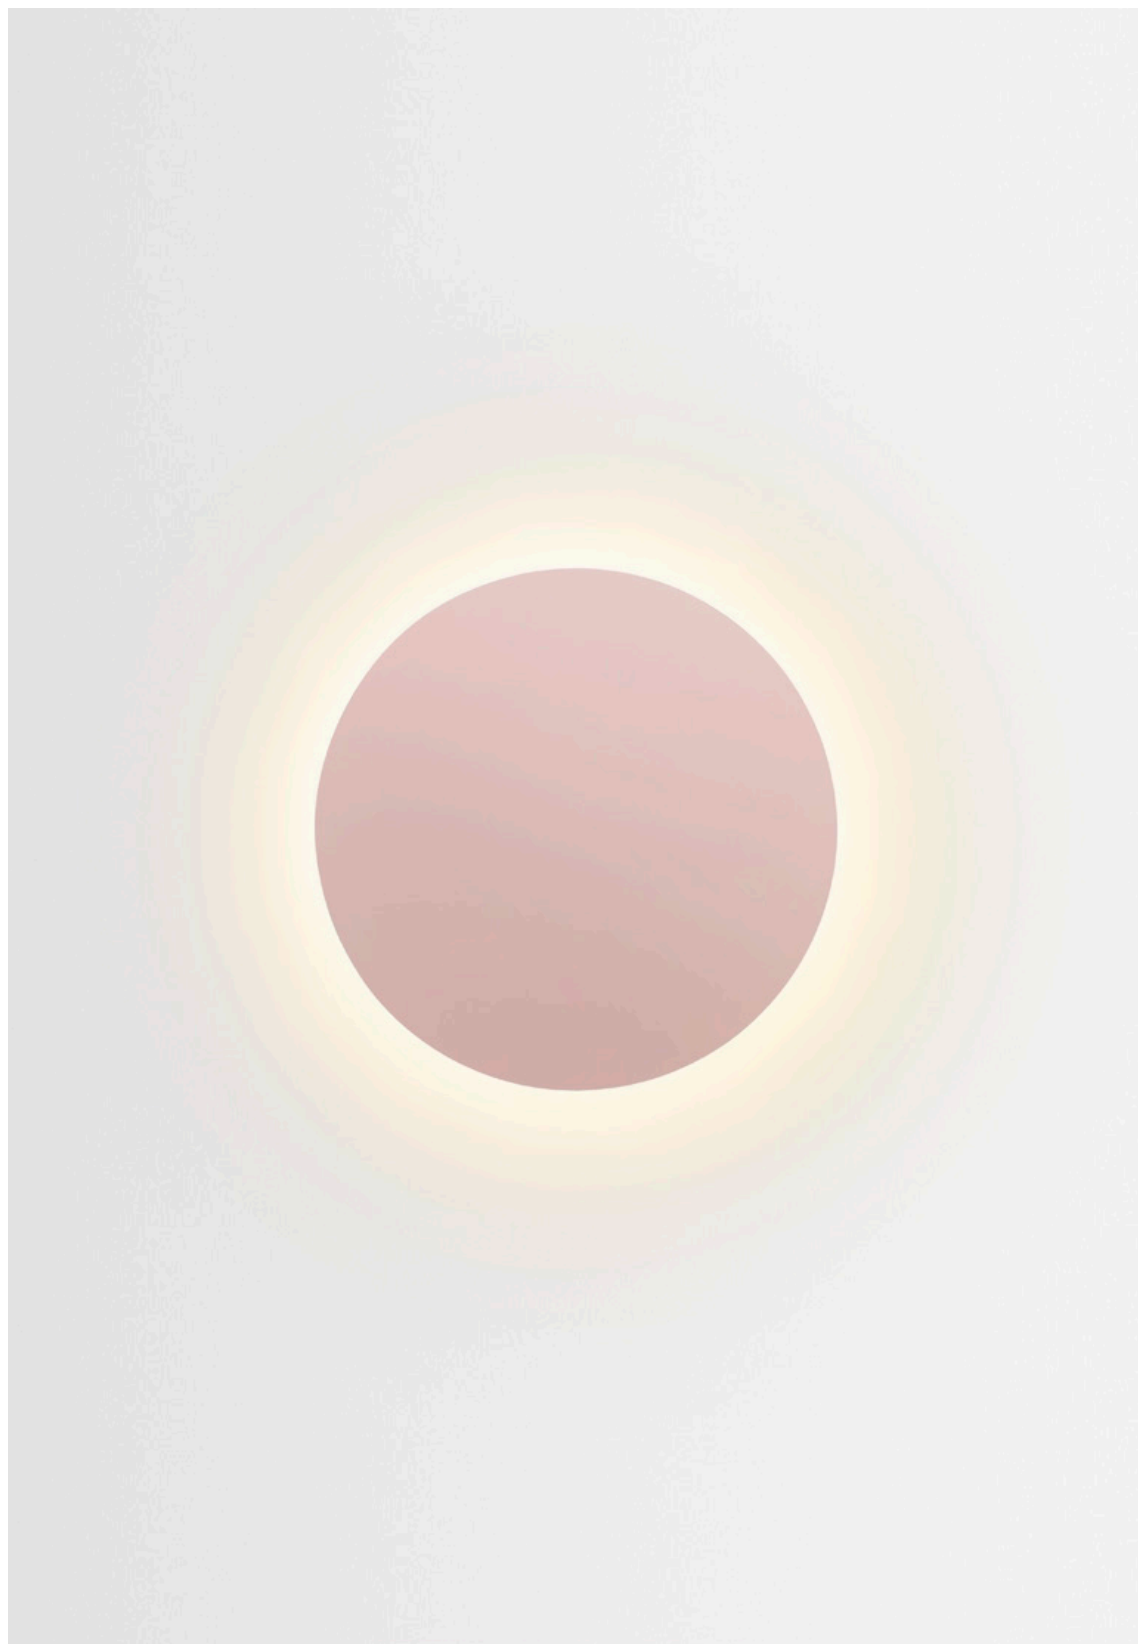

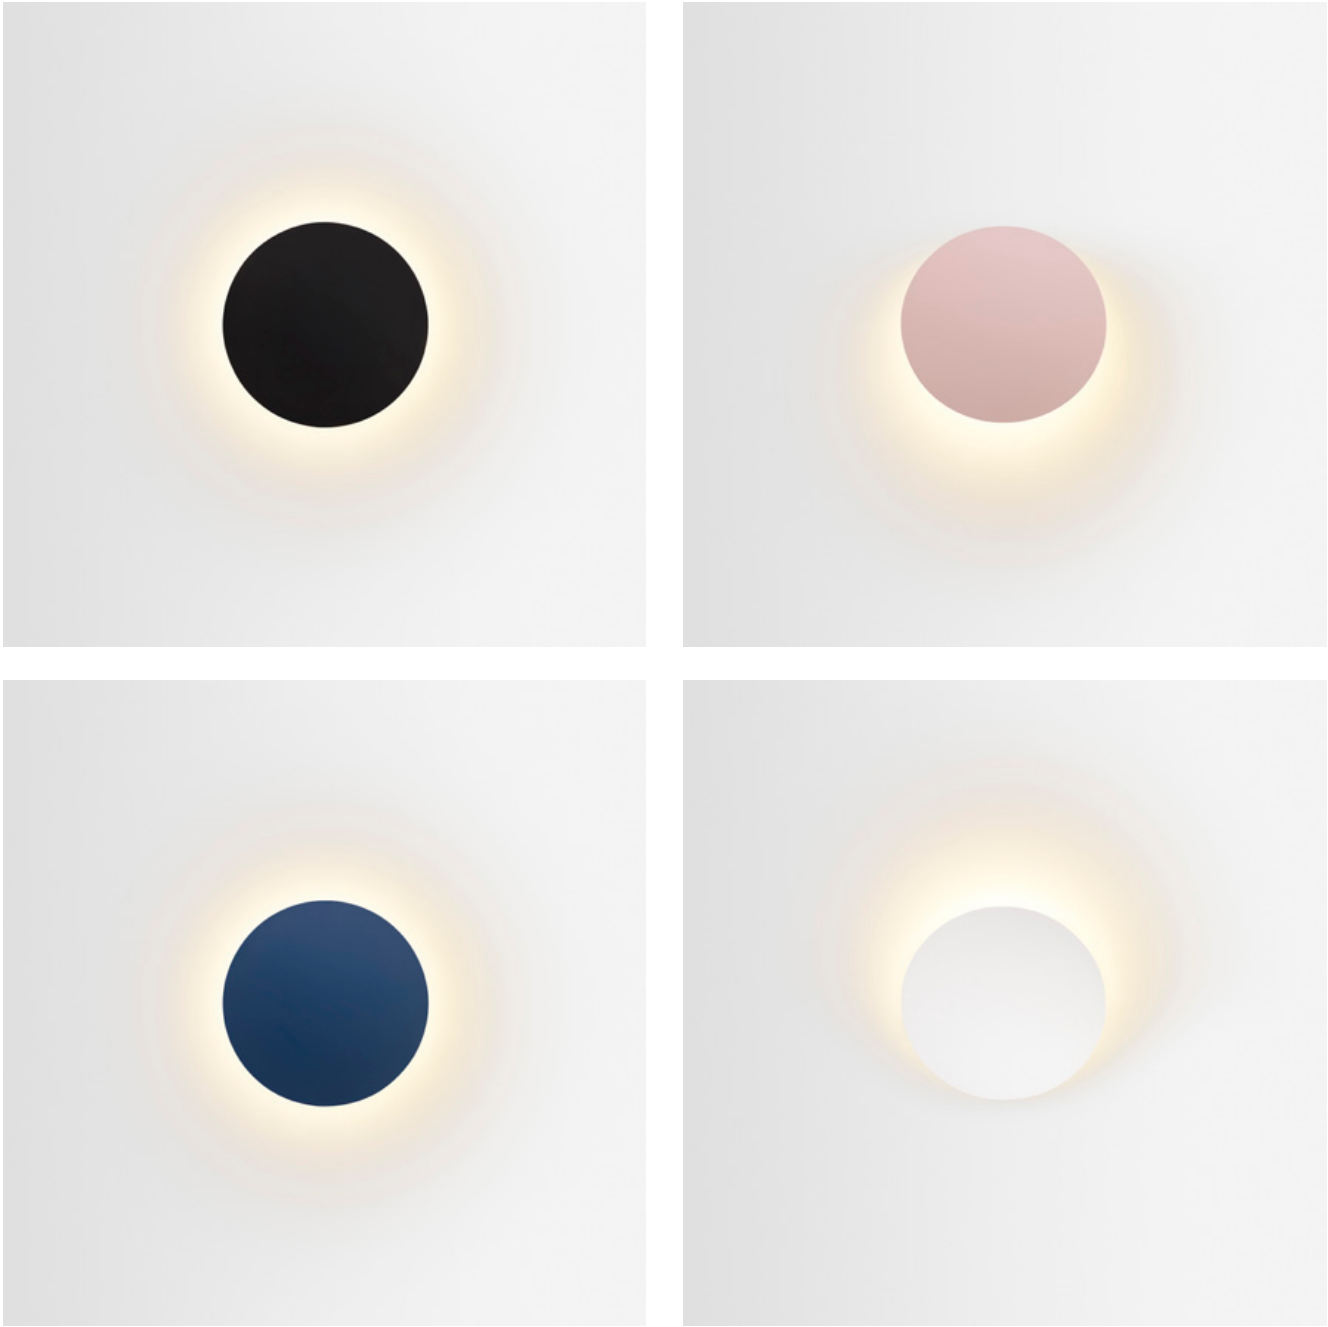

For Polar Wall Light specifications see back of catalogue

## POLAR

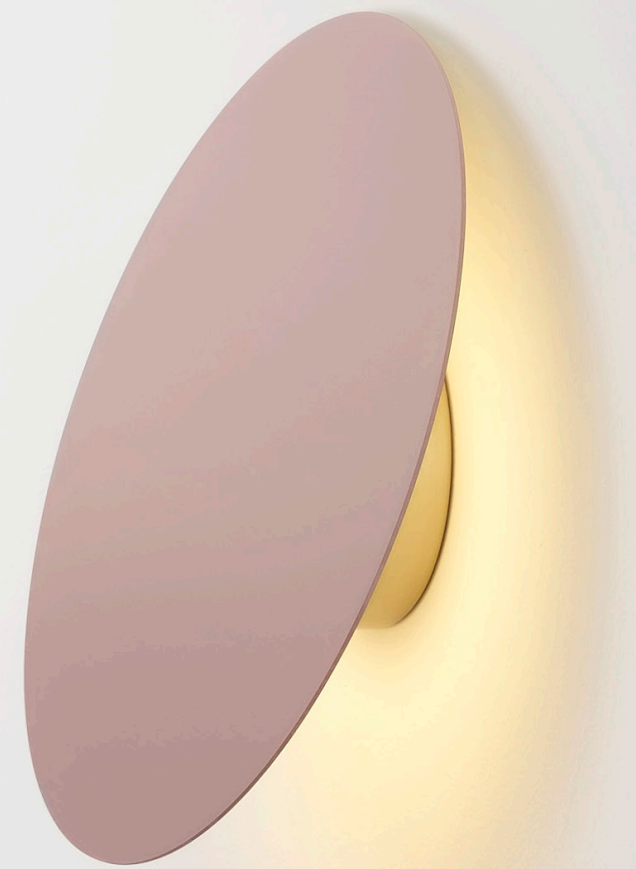

Wall Light

A circular motif is used throughout Polar defining its minimal operative form. The product utilises a unique hinge joint allowing the disc to pivot up or down, softly directing the light output. Polar's anodised gold wall canopy provides a beautiful base for the light to mount onto the wall and houses the 13W dimmable LED module.

The wall light is available in a pivot or fixed variation. The disk is available in two sizes (Ø300 and Ø450mm) and various finish options including a Gold Metallic disk and a range of painted options; White, Midnight Blue, Dusk Pink and Black.

## SILHOUETTE

Desk Lamp

Silhouette is your new best friend on the desk, complementing any space, be it at work or in the home. The lamp's bent metal stand is a playful continuation of the black cloth cord, which threads right up through and back down into the shade.

Available in anodised black or gold aluminium as standard finishes or in solid copper or brass as precious metal finishes, the gently fluted shade will cut a beautiful figure on its own, or as a grouping of mixed finishes.

For Silhouette Desk Lamp specifications see back of catalogue

## SILHOUETTE

Pendant / Chandelier

The Silhouette pendant offers flexibility in both function and materiality. Available in anodised black or gold aluminium as standard finishes or in solid copper or brass as precious metal finishes, the gently fluted shade will cut a beautiful figure on its own, or as a grouping of mixed finishes.

For Silhouette Pendant specifications see back of catalogue

For Silhouette Wall Light specifications see back of catalogue

## SILHOUETTE

Wall Light

Designed to provide a downlight to interior settings, the Silhouette wall light combines the form of the table light with its library of beautiful and varied material options. The lamp's bent metal stand is a playful continuation of the black cloth cord, which threads right up through and back down into the shade.

Available in anodised black or gold aluminium as standard finishes or in solid copper or brass as precious metal finishes, the gently fluted shade will cut a beautiful figure in any space.

For Flare Wall Light specification see back of catalogue

## FLARE

Wall Light

Designed to provide an uplight or downlight to interior settings, the Flare wall light combines the form of the Silhouette – with its library of beautiful and varied material options – with a minimalist, low-profile mounting bracket. Flare can be mounted at any angle and in clusters providing uplight, sidelight and downlight options.

The Flare wall light is available in glass, anodised aluminium, copper and brass.

For Oak Pendant specifications see back of catalogue

## OAK STANDARD

Pendant

Oak is a sustainably sourced timber pendant light. Each light shade is hand crafted and defined by the grain of the oak selected. The body of the light is accentuated by the intersecting hole, which allows a variety of hanging options with the cord wrapping through and around the hole detail.

The light is available in two sizes, and four finishes including the Blackwood Oak finish. Oak comes with a black ceiling canopy to suit the hanging and a standard 2m of black cloth cord.

For Oak Pendant specifications see back of catalogue

## OAK LARGE

Pendant

Oak Large is a sustainably sourced timber pendant light. An oversized version of Oak Standard, Oak Large is a perfect high-impact piece for larger areas such as atriums, lobbies and double-height spaces. Each light shade is hand crafted and defined by the grain of the oak selected.

The light is available in two sizes, and three finishes. Oak Large comes with a black ceiling canopy to suit the hanging, easily-adjustable support cable and a standard 3m of black cloth cord.

For Glaze Pendant specifications see back of catalogue

## GLAZE

Pendant

Glaze is an earthenware pendant light. The understated form of the shade highlights the beauty of its glazed surface. Each shade is hand crafted giving the product a shared yet unique appearance.

The product is available in a range of standard and metallic glazes and comes with a black ceiling canopy to suit the specific hanging and a standard 2m of black cloth cord.

For Adapt Lounge specifications see back of catalogue

## ADAPT

### Lounge

Flexible, inviting and productive, the Adapt collection of lounges and accessories are designed to evolve with the dynamic needs of today's workspace.

The clean lines and subtle surfaces of the Adapt bring a softness and sense of the familiar into the workspace. Designed to sit alone or combine in module configurations, arms, backs, screens desks and tables can be added simply and easily.

A truly modular system with functionality at its core, Adapt caters for offices, receptions, universities, airports and hospitality spaces.

For Adapt Side Table specifications see back of catalogue

# ADAPT

Side Table

Designed to interconnect with the Adapt Lounge and Ottoman or as a stand-alone table, the Adapt Side Table can be easily attached to the underside of the lounge to create a suspended table, with legs and braces to create a corner or end table, or with individual legs to stand as a separate table for any context.

The Adapt Side Table is available in a black or white laminate top with matching frame and legs or a black mirror top.

For Adapt Occasional Table specifications see back of catalogue

## ADAPT

### Occasional Table

A convenient, mobile working surface as well as a perfect complement for the Adapt Lounge collection. The Adapt Occasional Table allows for flexibility when the Adapt Lounge is used for meeting or training purposes.

Comprising a mild steel base with a distinct colour split between the top and bottom sections. The Adapt Occasional Table's top is available in an MDF table top powdercoated in black or white with custom colours available upon request.

For Adapt Pivoting Table specifications see back of catalogue

# ADAPT

Pivoting Table

Designed as an addition to the Adapt Lounge, the Adapt Pivoting Table can be easily installed on the underside of the lounge to provide a working table top surface, perfect for laptop use.

The table can pivot around the upright tube allowing the user to position the table as desired, as well as providing easy ingress/egress.

The table can be mouned on any Adapt Lounge module variation, either on the left or right hand side, or specific locations along the longer lounges.

For Adapt Round Ottoman specifications see back of catalogue

ADAPT

Round Ottoman

Using design elements form the Adapt Lounge, the Adapt Round Ottoman is a moveable upholstered stool that provides flexible seating for home and office spaces.

Available in two sizes, the Adapt Round Ottoman features an oversized French seam to bring a relaxed nature to the overall design.

For Noon Lounge specifications see back of catalogue

# NOON

Lounge

Noon is a modular collection of upholstered products which softly arc at the edges. Noon's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product. There is a tension created between the stitching detail on the inner and outer surface which run in parallel, framing and outlining the product.

The composition of materials balanced with an understated aesthetic creates a harmony within the elements of the Noon Collection. The collection is designed specifically for residential spaces with a commercial cross over and features the modular lounges, armchair, two coffee tables, an accompanying mirror and a rug in three colour ways.

For Noon Table specifications see back of catalogue

# NOON

Coffee Table

Bringing lightness and balance to a collection of rich, cohesive materials. Graphic in nature, the Noon Tables offer striking material combinations confined within an outer ring. The top is contained within half-milled legs creating a tension and lightness between the surfaces.

The Noon Tables are available in two sizes, Ø500mm x 450mm high and Ø1000mm x 350mm high. Both the top surface and frame are available in a variety of finishes with alternate colours available upon request. The table series is also available in the Noon Tri-Cut finish of marble, black mirror and walnut.

For Noon Mirror specifications see back of catalogue

# NOON

Mirror

The Noon Mirror is set back slightly from the frame separating the two forms and defining a tension between two surfaces. Framed in three alternating rings of timber in a walnut, rock maple and walnut combination. The timber defines a rich finish partnered with the highlight of the center rock maple ring.

The mirror is available in three finishes, clear, bronze and black and a combination of all these finishes in the Noon Tri-Cut configuration. Each mirror is Ø800mm and is supplied complete with a strong, easy to assemble wall-mounting system.

# ASYMMETRY TALL

Table

The Asymmetry Tall range provides rectangular and circular-topped options for dining, meeting, outdoor and indoor tables as well as a bar height option on a non-traditional base. The geometric frame has been designed to give strength, durability and personality, resulting in a versatile table which is available in a range of powder coat colours.

All bases are fitted with adjustable feet for levelling on the ground while the tops are available in laminate, veneer and marble for indoors and zinc plating bases and compact laminate tops for outdoors.

For Asymmetry Tall specifications see back of catalogue

For Asymmetry specifications see back of catalogue

# ASYMMETRY

Table

The Asymmetry collection is a refined series of tables with a geometric base and various table top options. The tables were designed for the OneThird brand which is a collaboration between some of Australia's best designers and Tasmanian manufacturers and craftspeople.

The table base is actually symmetrical; however, it takes on a much more abstract form when viewed from different angles. Asymmetry supplies a balanced platform to showcase the beauty of marble and sculpted Tasmanian timber surfaces.

For Duet Stool specifications see back of catalogue

## DUET

Stool

The Duet stool presents a harmony of versatility and beauty. Its blend of inviting timber or upholstery seat with a gracefully slender base enables options for both indoor and outdoor settings. The gently radiused curve of the seat provides a consistent element throughout the range. It is available in either a solid ash or upholstered top for indoor use, or black recycled HDPE for outdoor durability.

Bases can be powder coated in virtually any colour. The stool is available in three heights, 450mm, 650mm and 750mm to suit a range of different contexts.

For Tailored Couch specifications see back of catalogue

# TAILORED

Lounge

Tailored Lounge is a modular collection of upholstered products. The collection's name refers to the stitching detail on the upholstered products, inspired by fine suit stitching. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, lounges and coffee tables.

The collection is certified with eco specifier and carries a Green Tag. The Tailored Lounge is available in a variety of standard configurations with custom sizes available on request.

Tailored Lounge specifications on p207

For Tailored High-Back specifications see back of catalogue

# TAILORED HIGH-BACK

Lounge

Tailored High-Back is a modular collection of upholstered products designed specifically for office and open spaces. Designed with the desire to facilitate meetings, interactions and communication between people while also providing a space for quiet work and conversations. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, couches and coffee tables.

The collection is certified with eco specifier and carries a green tag. The Tailored High-Back is available in a variety of standard configurations with custom sizes available on request.

For Tailored 21 Table specifications see back of catalogue

# TAILORED 21 TABLE

Coffee Table

Tailored 21 Spun Tables is a collection of low height tables designed for commercial, residential and hospitality sectors. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, couches and coffee tables.

The Tailored 21 comprises sustainably sourced oak legs and a spun metal top. The product is available in three standard sizes with the top finished in white or black powder coat with an accompanying coloured inline Tailored Tray available.

For Tailored 32 Table specifications see back of catalogue

# TAILORED 32 TABLE

Coffee Table

Tailored 32 Coffee Table is a collection of low-height tables designed for commercial, residential and hospitality sectors. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, couches and coffee tables.

The Tailored 32 comprises sustainably sourced oak legs and a variety of top surface options. The product is available in an array of standard configurations with custom sizes available on

For Tailored Tray specifications see back of catalogue

# TAILORED TRAY

Spun Tray

Tailored 21 Table Trays can be a singular accessory or an inline tray for the standard Tailored 21 Spun Table.

The trays are available in three finishes and come with a black felt base.

For Half Full Table specifications see back of catalogue

## HALF FULL

Table

Half Full is a solid timber range of products. The tables are available in a number of standard sizes with custom sizes also available upon enquiry. The main feature of the product is the use of a half turned leg, which gives each product a unique and playful nature.

The products are made entirely from sustainably sourced oak using CNC technology combined with traditional timber joining techniques. The name Half Full gives reference to the leg being halved and also to the product's optimism referencing the term 'glass half full'.

For Half Full Stool specifications see back of catalogue

# HALF FULL

Stool

Half Full is a solid oak timber collection of products. The central feature of the range is the use of a half turned leg, which gives the tables, benches and stools their unique appearance and playful nature.

The name Half Full refers as much to optimism and the term ‘glass half full’, as to the common half leg that supports each product. An exposed tenon joint is also a common characteristic of the collection and references the handcrafted nature of the products. The stool is made from sustainably sourced oak, and available in a number of house stains.

For Flint specifications see back of catalogue

# FLINT

Table and Bench

The Flint table and bench collection is available in an indoor and an outdoor range. The leg detail was inspired from the principles of a lever and explores the idea of supporting the table using its own stabilising weight.

The tabletop is available in sustainably sourced Spotted Gum and stained Accoya for indoor and outdoor use. The zinc plated steel legs are available in the full range of powder coat colours.

Polar Desk Lamp

# Polar

Wall Light

### Description

A circular motif is used throughout Polar defining its minimal operative form. The product utilises a unique hinge joint allowing the disc to pivot up or down, softly directing the light output. Polar’s anodised gold wall canopy provides a beautiful base for the light to mount onto the wall and houses the 13W dimmable LED module.

The wall light is available in a pivot or fixed variation. The disk is available in two sizes (Ø300 and Ø450mm) and various finish options in a range of painted options; White, Midnight Blue, Dusk Pink, Black and Gold Metallic.

### Available Finishes

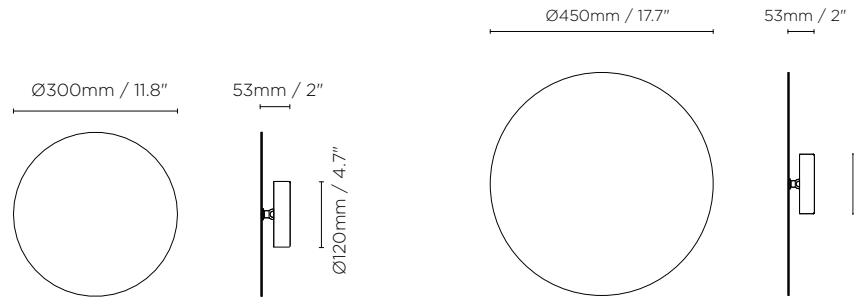

### Technical

Material	Anodised Aluminium and Painted Aluminium
Lamping	240v - 11W LED Module, 1080 lm 2900K warm white, dimmable 120v - 11W LED Module, 1080 lm 2900K warm white, dimmable (120v supplied for North America/Canada)

Flare Wall Light

# Oak

Pendant

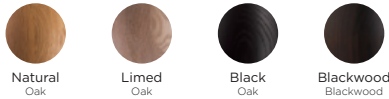

## Description

Oak is a sustainably sourced timber pendant light. Each light shade is hand crafted and defined by the grain of the oak selected. The body of the light is accentuated by the intersecting hole, which allows a variety of hanging options with the cord wrapping through and around the hole detail.

The light is available in two sizes, and four finishes including the Blackwood Oak finish. Oak comes with a black ceiling canopy to suit the hanging and a standard 2m of black cloth cord.

## Available Finishes

## Dimensions

# Asymmetry

Table

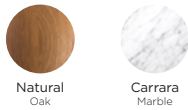

## Description

The Asymmetry collection is a refined series of tables with a geometric base and various table top options. The tables were designed for the OneThird brand which is a collaboration between some of Australia's best designers and Tasmanian manufacturers and craftspeople.

The table base is actually symmetrical; however, it takes on a much more abstract form when viewed from different angles. Asymmetry supplies a balanced platform to showcase the beauty of marble and sculpted Tasmanian timber surfaces.

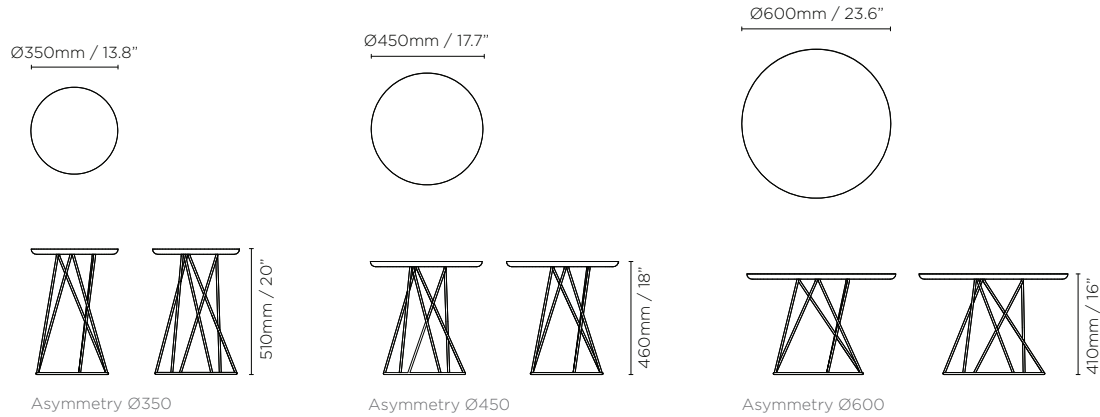

## Available Finishes on Top

## Available Finishes on Leg

## Dimensions

# Asymmetry Tall

Table

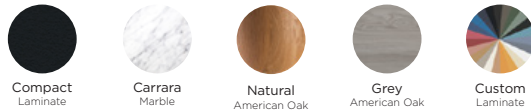

## Description

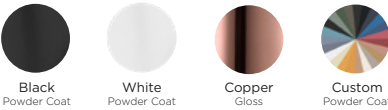

The Asymmetry Tall range provides rectangular and circular-topped options for dining, meeting, outdoor and indoor tables as well as a bar height option on a non-traditional base. The geometric frame has been designed to give strength, durability and personality, resulting in a versatile table which is available in a range of powder coat colours.

All bases are fitted with adjustable feet for levelling on the ground while the tops are available in laminate, veneer and marble for indoors and zinc plating bases and compact laminate tops for outdoors.

# Adapt

Side Table

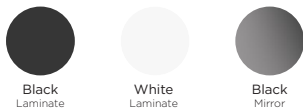

### Description

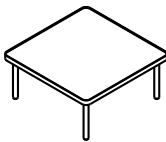

Designed to interconnect with the Adapt Lounge and Ottoman or as a stand-alone table, they can be easily attached to the underside of the lounge to create a suspended table, with legs and braces to create a corner or end table, or with individual legs to stand as a separate table for any context.

The Adapt Side Table is available in a black or white laminate top with matching frame and legs or a black mirror top.

# Adapt

Pivoting Table

Description

Designed as an addition to the Adapt Lounge, the Adapt Pivoting Table can be easily installed on the underside of the lounge to provide a working table top surface, perfect for laptop use.

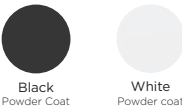

The table can pivot around the upright tube allowing the user to position the table as desired, as well as providing easy ingress/egress.

The table can be mouned on any Adapt Lounge module variation, either on the left or right hand side, or specific locations along the longer lounges.

Adapt Round Ottoman

# Duet

Stool

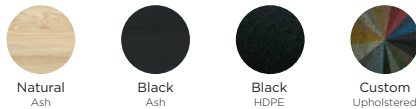

### Description

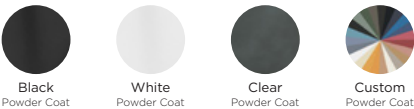

The Duet stool presents a harmony of versatility and beauty. Its blend of inviting timber or upholstery seat with a gracefully slender base enables options for both indoor and outdoor settings. The gently radiused curve of the seat provides a consistent element throughout the range. It is available in either a solid ash or upholstered top for indoor use, or black recycled HDPE for outdoor durability.

Bases can be powder coated in virtually any colour. The stool is available in three heights, 450mm, 650mm and 750mm to suit a range of different contexts.

# Noon

Coffee Table

### Description

Bringing lightness and balance to a collection of rich, cohesive materials. Graphic in nature, the Noon Tables offer striking material combinations confined within an outer ring. The top is contained within half-milled legs creating a tension and lightness between the surfaces.

The Noon Tables are available in two sizes, Ø500mm x 450mm high and Ø1000mm x 350mm high. Both the top surface and frame are available in a variety of finishes with alternate colours available upon request. The table series is also available in the Noon Tri-Cut finish of marble, black mirror and walnut.

# Noon

Mirror

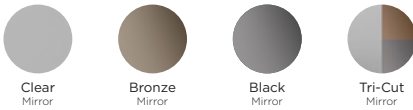

Description

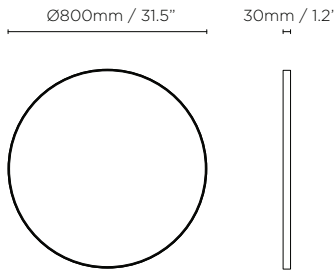

The Noon Mirror is set back slightly from the frame separating the two forms and defining a tension between two surfaces. Framed in three alternating rings of timber in a walnut, rock maple and walnut combination. The timber defines a rich finish partnered with the highlight of the center rock maple ring.

The mirror is available in three finishes, clear, bronze and black and a combination of all these finishes in the Noon Tri-Cut configuration. Each mirror is Ø800mm and is supplied complete with a strong, easy to assemble wall-mounting system.

Available Finishes on mirror

Dimensions

Noon Mirror

# Noon

Lounge

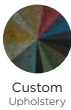

Description

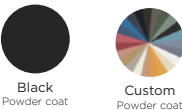

Noon is a modular collection of upholstered products which softly arc at the edges. Noon's arm allows the cushion to flow over the arc, creating an extra level of comfort and softness to the product. There is a tension created between the stitching detail on the inner and outer surface which run in parallel, framing and outlining the product.

The composition of materials balanced with an understated aesthetic creates a harmony within the elements of the Noon Collection. The collection is designed specifically for residential spaces with a commercial cross over and features the modular lounges, armchair, two coffee tables, an accompanying mirror and a rug in three colour ways.

# Half Full

Table

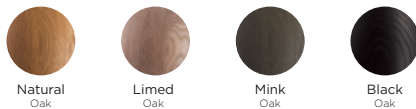

## Description

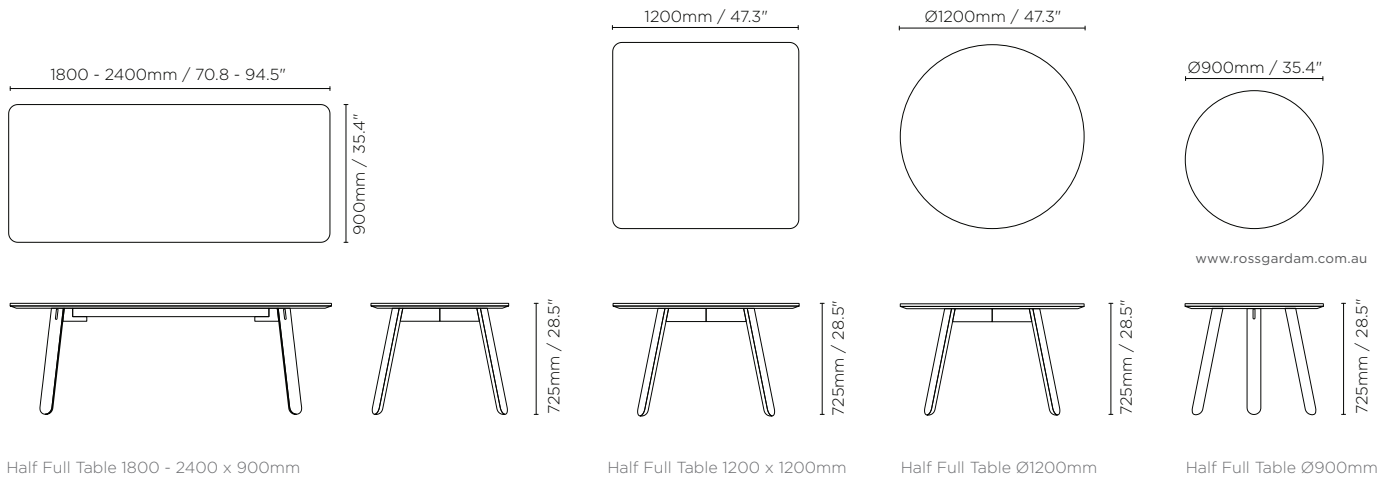

Half Full is a solid timber range of products. The tables are available in a number of standard sizes with custom sizes also available upon enquiry. The main feature of the product is the use of a half turned leg, which gives each product a unique and playful nature.

The products are made entirely from sustainably sourced oak using CNC technology combined with traditional timber joining techniques. The name Half Full gives reference to the leg being halved and also to the product's optimism referencing the term 'glass half full.'

# Half Full

Stool

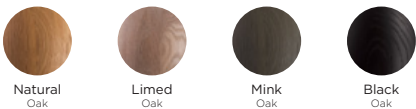

## Description

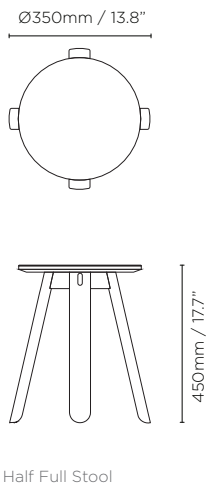

Half Full is a solid oak timber collection of products. The central feature of the range is the use of a half turned leg, which gives the tables, benches and stools their unique appearance and playful nature.

The name Half Full refers as much to optimism and the term 'glass half full', as to the common half leg that supports each product. An exposed tenon joint is also a common characteristic of the collection and references the handcrafted nature of the products. The stool is made from sustainably sourced oak, and available in a number of house stains.

# Flint

Table and Bench

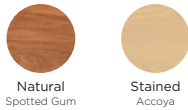

## Description

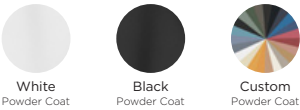

The Flint table and bench collection is available in an indoor and an outdoor range. The leg detail was inspired from the principles of a lever and explores the idea of supporting the table using its own stabilising weight.

The tabletop is available in sustainably sourced Spotted Gum and stained Accoya for indoor and outdoor use. The zinc plated steel legs are available in the full range of powder coat colours.

# Tailored

Lounge

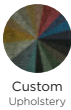

## Description

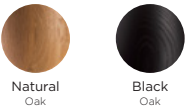

Tailored Lounge is a modular collection of upholstered products. The collection's name refers to the stitching detail on the upholstered products, inspired by fine suit stitching. The oak leg with its geometric shape is a shared characteristic of the Tailored collection, providing a strong visual connection between the tables, couches and coffee tables.

The collection is certified with eco specifier and carries a Green Tag. The Tailored Lounge is available in a variety of standard configurations with custom sizes available on request.
