

Instructions

1. Unbox and check all components prior to assembly.
2. Invert the tabletop and rest on a flat surface.
3. Position the legs through the threaded studs, place the spring washers over each of the studs. Fasten each nut over the threaded stud and spring washer and loosely fasten with the allen key.
4. Once all nuts have been loosely fitted they can be fully tightened.

Please note: The above diagram is indicative of the 450, 600 and 800 table assembly process.

Safety Precautions

- Do not overtighten the nuts.
- Please refer to the above instructions for the assembly of the table.
- Please do not modify or adjust the table in any way.
- Ross Gardam™ is not responsible for any damages caused by not following the provided instructions.
