

Silhouette

Wall Light

Description

Designed to provide a downlight to interior settings, the Silhouette wall light combines the form of the table light with its library of beautiful and varied material options. The lamp's bent metal stand is a playful continuation of the black cloth cord, which threads right up through and back down into the shade.

Available in anodised black or gold aluminium as standard finishes or in solid copper or brass as precious metal finishes, the gently fluted shade will cut a beautiful figure in any space. The product comes standard with a dimmable 9W LED globe.
