

# Hemera

## Table Lamp

### Description

Just like the brutalist architecture from 60 years ago that it references, the Hemera desk lamp is powerful in its simplicity of form. Hemera is entirely unique in form and materiality and is a truly one of a kind object.

Designed for the New Volumes™ collection, the two solid circular volumes intersect with no overtly visible light source, creating a striking desktop monolith and a lighting device of refined functionality.

### Available Finishes
