

Nebulae

Wall Light

Description

The Nebulae Collection is inspired by the diffusion of both natural and LED produced light. The geometric machined forms coupled with the light and fluid glass creates a balance between the elements.

The Nebulae Wall Light is a statement in any space and supplies a beautiful adjustable light level. The wall light can be specified with a single glass disc or layered with an additional disc to create expensive light dispersion options. The body is manufactured from machined aluminium white champagne or black anodised. Nebulae's discs come in a Textured, Bubbled Black, Rippled Blue, Clear Fluted and White Pearl glass.

Available Finishes

Technical

Material	Anodised Aluminium, Glass
Lamping	240v - 11W LED AC Module, 1080 lm 2900K warm white, dimmable 120v - 11W LED Module, 1080 lm 2900K warm white, dimmable (120v supplied for North America/Canada)
LED Lifespan	LED Module lifespan = 15,000 hrs
LED Lifespan	11W LED lifespan = 15,000 hrs
Control	Phase Control dimmable Network Control operational On/Off, non-dimmable Dimming range 10 - 100%. For optimal dimming performance we recommend sourcing a rotary or push button dimmer with an adjustment dial capable of setting the dimming range of the fixture.
IP Rating	IP20 - for indoor use only
